

Child Safe Standards Policy

Freshwater Creek Steiner School has developed this Child Safe Standards Policy as an overarching document that provides key elements of our approach to protecting children from abuse. It forms the foundation of the School's procedures, practices, decision-making processes and ultimately the School's culture with respect to child safety.

The School's Child Safe Standards Policy has been approved and endorsed by the School's School Council and is regularly reviewed by the School Council.

Objectives

This Policy provides the framework for:

- the development of work systems, practices, policies and procedures that promote child safety within the School
- the creation of a positive and robust child safe culture
- the promotion and open discussion of child safety issues within the School
- compliance with all laws, regulations and standards relevant to child safety in Victoria.

Statement of Commitment to Child Safety

Freshwater Creek Steiner School is committed to providing a child safe and child friendly environment, where children and young people are safe and feel safe to actively participate in decisions that affect their lives.

At Freshwater Creek Steiner School we have a zero tolerance for child abuse and are committed to acting in children's best interests and keeping them safe from harm. The School regards its child safety responsibilities with the utmost

importance and as such, is committed to providing the necessary resources to ensure compliance with all relevant child safety laws and regulations and maintain a child safe culture.

Child Safe Values and Principles

The School's commitment to child safety is based on the following overarching principles that guide the development and regular review of our work systems, practices, policies and procedures to protect children from abuse.

1. All children have the right to be safe.
2. The welfare and best interests of the child are paramount.
3. The views of the child and a child's privacy must be respected.
4. Clear expectations for appropriate behaviour with children are established in our Child Safe Code of Conduct and Staff and Student Professional Boundaries policy.
5. The safety of children is dependent upon the existence of a child safe culture.
6. Child safety awareness is promoted and openly discussed within our School community.
7. Procedures are in place to screen all staff, Direct Contact Volunteers**, Third Party Contractors and External Education Providers who have direct contact with children.
8. Child safety and protection is everyone's responsibility.
9. Child Safety training is mandatory for all School Council members, staff and Direct Contact Volunteers.
10. Procedures for responding to alleged or suspected incidents of child abuse are simple and accessible for all members of the School community.
11. Children from culturally or linguistically diverse backgrounds, Aboriginal or Torres Strait Islander Children and other children who are vulnerable (such as children in out-of-home care or children of diverse sexuality) have the right to special care and support.

12. Children who have any kind of disability have the right to special care and support.

***Direct Contact Volunteers are those volunteers who are involved in providing support, guidance and supervision directly to students and could potentially have direct contact with students during the normal course of providing the volunteer service.*
